

TSO forum: technical visits

Registrations:

Choice between two visits. 60 participants maximum per visit (maximum coach capacity). Registrations on a first come, first served basis.

Choice 1: Croix Rouse tunnel: visit of the tube reserved for “active” transport modes and public transport

9:15	Pick-up point at Bellecour square (the exact location will be specified at a later date).
10:00	Arrival at the Croix Rouse tunnel. Welcome by the operator and general presentation of the tunnel (consecutive translation will be provided).
10:30	Participants split into groups (consecutive translation will be provided for each group). Each group visits: <ul style="list-style-type: none">- the small control centre,- the tunnel tube,- an emergency exit.
11:50	End of visit. Participants make their way back to the coach.
12:00	Departure for Part Dieu rail station
12:30-12:45	Drop off at Part Dieu (Villette car park behind the rail station). Participants can then leave Lyon by train or via the Rhône Express shuttle service which goes to the airport.

Choice 2: Visit of the Lyon northern ring road control centre

9:15	Pick-up point behind Part Dieu rail station (Villette car park)
10:00	Arrival at the Cordière control centre and welcome by the operator
10:30	Participants split into two groups (consecutive translation will be provided for each group). Each group will visit: <ul style="list-style-type: none">- the main control room- the toll gate control room- the crisis management room
12:00	Departure for Part Dieu rail station
12:30-12:45	Drop off at Part Dieu (Villette car park behind the rail station). Participants can then leave Lyon by train or via the Rhône Express shuttle service which goes to the airport.
